### Preparing for Civilian Employment

Every year, approximately 200,000 men and women leave U.S. military service and return to life as civilians. The transition to civilian life can be a challenging experience for many military members, especially when it comes to a veteran's job search. Unlike civilians, military veterans are uniquely qualified for specific jobs or industries based on their experience and skillset.

You developed valuable skills in the military. Apply those strengths and abilities in a rewarding job that creates real impact and supports your goals. Get personal, trusted guidance from our transition experts.
